

**Department of Health & Human Services  
Administration for Children and Families**

**Program Office:** Office of Refugee Resettlement (ORR)

**Program Announcement Number:** HHS-2008-ACF-ORR-ORRRS-0115

**Announcement Title:** Notice of Proposed Fiscal Year (FY) 2008 Formula Allocations to States for Refugee Social Services

**CFDA Number:** 93.566 - Refugee Assistance – State Administered Programs

**Date of Issuance:** July 2, 2008

**I. SUMMARY:**

This notice establishes the proposed Fiscal Year (FY) 2008 formula allocations to States for refugee social services under the Refugee Resettlement Program (RRP). The notice reflects proposed allocations to States adjusted for FYs 2005, 2006, and 2007 refugee arrivals data (October 1, 2004 through September 30, 2007) and from data submitted to Office of Refugee Resettlement (ORR) by States.

**II. APPLICATION**

A State must have an approved Annual Services Plan, which is part of the OMB-approved Quarterly Performance Report. In order to use formula social services funds for Cuban and Haitian entrants, a State must indicate in its Annual Services Plan that Cuban/Haitian entrants will be served and must have an approved Cuban/Haitian Entrant Program (CHEP) in its State Plan.

**III. ELIGIBLE POPULATIONS**

Eligibility for refugee social services include refugees, asylees, Cuban and Haitian entrants, certain Amerasians from Vietnam who are admitted to the U.S. as immigrants, certain Amerasians from Vietnam who are U.S. citizens, and victims of a severe form of trafficking who receive certification or eligibility letters from ORR, and certain other specified family members. In addition, Iraqi and Afghan special immigrants may receive social services for a limited period of time.

See 45 C.F.R. 400.43 and ORR State Letter #00-17 on eligibility for

ORR programs. Also see, ORR State Letter #01-13 on the Trafficking Victims Protection Act, dated May 3, 2001, as modified by ORR State Letter # 02-01, January 4, 2002, and ORR State Letter # 04-12, June 18, 2004, and ORR State Letters #08-04, January 18, 2008 and #08-06, February 7, 2008, on Iraqi and Afghan Special Immigrant eligibility. ORR State Letters may be found at [http://www.acf.hhs.gov/programs/orr/policy/orr\\_policy.htm](http://www.acf.hhs.gov/programs/orr/policy/orr_policy.htm). ORR regulations under the Code of Federal Regulations (C.F.R.) may be found at [http://www.acf.hhs.gov/programs/orr/policy/orr\\_regulations.htm](http://www.acf.hhs.gov/programs/orr/policy/orr_regulations.htm).

The term "refugee," used in this notice for convenience, is intended to encompass such additional persons who are eligible to participate in refugee program services.

#### **IV. SUPPLEMENTARY INFORMATION:**

##### **Amounts for Allocation**

ORR has \$154,005,000 in Fiscal Year 2008 refugee social service funds, as appropriated under the Consolidated Appropriations Act, 2008, (Pub. L. No. 110-161).

The FY 2008 Senate Committee Report (S. Rep. No. 110-107) reads as follows with respect to Refugee and Entrant Assistance:

"The Committee recommends \$654,166,000 for refugee and entrant assistance. The recommendation is \$66,319,000 above the comparable funding level for fiscal year 2007 and \$1,464,000 below the budget request for this program... In order to carry out the refugee and entrant assistance program, the Committee recommends \$294,021,000 for transitional and medical assistance including State administration and the voluntary agency program; \$9,823,000 for victims of trafficking; \$154,005,000 for social services, \$4,748,000 for preventive health; and \$48,590,000 for targeted assistance."

The FY 2008 House Committee Report (H.R. Rep. No. 110-231) reads as follows with respect to Refugee and Entrant Assistance:

"The Committee recommends \$650,630,000 for refugee assistance programs. This is \$62,783,000 more than the fiscal year 2007 funding level and \$5,000,000 less than the budget request."

The House Committee Report (H.R. Rep. 110-231), states under Social Services:

"The Committee recommends \$154,005,000 for social services. This is the same as the fiscal year 2007 funding level and \$4,395,000 more than the budget request. Funds are distributed by formula as well as through the discretionary grant-making process for special projects.

Within the funds provided, the Committee has included \$19,000,000 for support to communities with large concentrations of Cuban and Haitian entrants of varying ages whose cultural differences make assimilation especially difficult, justifying a more intense level and longer duration of Federal assistance.

The Committee continues to request that the Administration for Children and Families adequately fund refugee school impact grants."

Public Law No. 110-161 reads as follows:

"For necessary expenses for refugee and entrant assistance activities and for costs associated with the care and placement of unaccompanied alien children authorized by title IV of the Immigration and Nationality Act and section 501 of the Refugee Education Assistance Act of 1980, for carrying out section 462 of the Homeland Security Act of 2002, and for carrying out the Torture Victims Relief Act of 1998, \$667,288,000, of which up to \$9,988,000 shall be available to carry out the Trafficking Victims Protection Act of 2000: Provided, That funds appropriated under this heading pursuant to section 414(a) of the Immigration and Nationality Act and section 462 of the Homeland Security Act of 2002 for fiscal year 2008 shall be available for the costs of assistance provided and other activities to remain available through September 30, 2010."

ORR intends to use the \$154,005,000 appropriated for FY 2008 social services as follows:

- \$83,403,294 is to be allocated under the three-year population (FYs 2005, 2006, and 2007) social services formula, as set forth in this notice, for the purpose of providing employment services and other needed services to refugees.
- \$45,925 is to be awarded to six States for secondary migrants erroneously omitted from the FY 2007 final allocations.
- Approximately \$19,000,000 is to be awarded for continuation of awards of grants to serve communities most heavily affected by recent Cuban and Haitian entrant and refugee arrivals.

- Approximately \$15,000,000 is to be awarded for continuation of awards for educational support to schools with a significant proportion of refugee children, consistent with previous support to schools heavily impacted by large concentrations of refugees.
- Approximately \$30,267,906 is to be awarded through discretionary awards to States and non-profit organizations for continuation of awards made in prior years.
- Approximately \$6,287,875 is to be awarded as new social service discretionary grants under new standing competitive grant announcements issued separately from this proposed notice.

## V. Refugee Social Service Funds

The population figures used for the proposed FY 2008 formula social services allocation include refugees, Amerasians from Viet Nam, Cuban/Haitian entrants, Havana parolees, asylees, and victims of severe forms of trafficking for FYs 2005, 2006, and 2007. The proposed FY 2008 formula social services allocation also includes Cuban medical parolees beginning in August 2006, when the program started, through FY 2007. These population figures have been adjusted in the proposed notice to reflect the most recent and accurate information on refugee arrivals and on secondary migrants, asylees, and entrant data submitted by States. (See *Section V. Basis of Population Estimates*).

The Director allocates \$83,403,294 to States on the basis of each State's proportion of the national population of refugees who arrived in the U.S. during the most recent three-year period before the beginning of FY 2008 (including a floor amount for States that have small refugee populations). Of the amount, approximately **\$6 million** is to be awarded to Wilson/Fish Alternative Projects providing social services.

Section 412(c)(1)(B) of the Immigration and Nationality Act (INA) states that "funds available for a fiscal year for grants and contracts [for social services] . . . shall be allocated among the States based on the total number of refugees (including children and adults) who arrived in the United States not more than 36 months before the beginning of such fiscal year and who are actually residing in each State (taking into account secondary migration) as of the beginning of the fiscal year."

States were requested in the ORR State Letter 08-03, dated January 11, 2008, to submit their State-generated asylee and entrant data and the ORR-11 secondary migration data files for refugees and entrants who have resided in their State for the three-year period prior to October 1, 2007, to the ORR web-based data submission system for the purpose of data records matching for the FY 2008 social service formula allocations. States were informed that the website would be open for file submission from February 11 through February 29, 2008. This was the only time period for States to submit data for the FY 2008 Social Services formula allocations and for the ORR-11 secondary migration report. The one-time only data submission period, February 11 through February 29, 2008, was established to ensure adequate time for records matching and for timely publication of the proposed and final notices for the Social Services formula allocations for FY 2008. However, in order to accommodate States that failed to submit their data by February 29, 2008, the ORR Data Submission Website was reopened from March 10, 2008 to March 14, 2008 to give all States a last opportunity to submit data files for FY 2008 formula allocations.

In preparation for FY 2008 Social Services formula allocations, States were requested to submit (see ORR State Letter 08-03, January 11, 2008) the name, e-mail address, and telephone number for a primary and an alternate user of the ORR website system to [moushumi.beltangady@acf.hhs.gov](mailto:moushumi.beltangady@acf.hhs.gov) by January 18, 2008. The State's identified primary and alternate users received instructions prior to February 11, 2008, on the use of the web-based data submission system for providing asylee and entrant data for Social Services, as well as ORR-11 secondary migration data for refugees and entrants, to ORR.

States that are receiving Cuban or Haitian entrants as border crossers or through ports of entry other than Miami, Florida, had the opportunity to also submit data to ORR between February 11, and February 29, 2008 regarding entrants served in their programs, and again from March 10 through March 14, 2008. These data were received by ORR and matched against ORR's Refugee Arrivals Data System (RADS). The results of the match are reflected in this notice of proposed allocations and will be reflected in the final notice.

As established in the FY 1992 social services notice published in the *Federal Register* on August 29, 1991, section I, "Allocation Amounts" 56 Fed. Reg 42745 (Aug. 29, 1991), a variable floor amount for States that have small refugee populations is calculated as follows: If the

application of the regular allocation formula yields less than \$100,000, then –

(1) a base amount of \$75,000 is provided for a State with a population of 50 or fewer refugees who have been in the U.S. three (3) years or less; and

(2) for a State with more than 50 refugees who have been in the U.S. three (3) years or less: (a) a floor has been calculated consisting of \$50,000 plus the regular per capita allocation for refugees above 50 up to a total of \$100,000 (in other words, the maximum under the floor formula is \$100,000); (b) if this calculation has yielded less than \$75,000, a base amount of \$75,000 is provided for the State.

The allocation formula floor of \$75,000 for States with very small annual arrivals provides funding for the minimal structure for a State to provide employment and other social services necessary for successful resettlement in American communities.

## **VI. Populations to be Served and Allowable Services**

Eligibility for refugee social services includes persons who meet all requirements of 45 C.F.R. 400.43. (See *Section III. Eligible Populations.*) In addition, persons granted asylum are eligible for refugee benefits and services from the date that asylum was granted (See ORR State Letter No. 00-12, effective June 15, 2000, as clarified by ORR State Letter No. 00-15, August 3, 2000). Victims of a severe form of trafficking who have received a certification or eligibility letter from ORR and certain other specified family members are eligible from the date on the certification letter (see ORR State Letter No. 01-13, May 3, 2001, as modified by ORR State Letter No. 02-01, January 4, 2002, and ORR State Letter, No.04-12, June 18, 2004). In addition, Iraqi and Afghan special immigrants may be eligible for refugee benefits and services for a limited period of time (see ORR State Letter No. 08-04, January 18, 2008 and ORR State Letter, No. 08-06, February 7, 2008. Iraqi and Afghan Special Immigrant Visas (SIVs) are not eligible for inclusion in the FY 2008 formula allocations because the laws conferring eligibility to this group were enacted in FY 2008. Iraqi and Afghan SIVs will be included in the FY 2009 formula allocations, which will include eligible populations for FY 2008-2006. (ORR State Letters may be found at [http://www.acf.hhs.gov/programs/orr/policy/orr\\_policy.htm](http://www.acf.hhs.gov/programs/orr/policy/orr_policy.htm).)

Services to refugees must be provided in accordance with the rules of 45 C.F.R. Part 400 Subpart I -- Refugee Social Services. Although the allocation formula is based on the three-year refugee population (FYs

2005, 2006, and 2007), States may provide services to refugees who have been in the country up to 60 months (five years), with the exception of referral and interpreter services and citizenship and naturalization preparation services for which there is no time limitation (45 C.F.R. 400.152(b)).

Allowable social services are those indicated in 45 C.F.R. 400.154 and 400.155. Additional services not included in these sections that the State may wish to provide must be submitted to, and approved by the Director of ORR, as required under 45 C.F.R. 400.155(h).

## **VII. Service Priorities**

In accordance with 45 C.F.R. 400.147, States are required to provide social services to refugees in the following order of priority, except in certain individual extreme circumstances: (a) all newly arriving refugees during their first year in the U.S. who apply for services; (b) refugees who are receiving cash assistance; (c) unemployed refugees who are not receiving cash assistance; and (d) employed refugees in need of services to retain employment or to attain economic independence. In order for refugees to leave Temporary Assistance for Needy Families (TANF) quickly, States should, to the extent possible, ensure that all newly arriving refugees receive refugee-specific services designed to address the employment barriers that refugees typically face.

ORR encourages States to re-examine the range of services they currently offer to refugees. Those States that have had success in helping refugees achieve early employment may find it possible to expand beyond the provision of basic employment services and to address the broader needs that refugees have in order to enhance their ability to maintain financial security and to integrate successfully into the community. Other States may need to reassess the delivery of employment services in light of local economic conditions and develop new strategies to better serve the newly arriving refugee groups.

ORR also makes formula social services funds available to pay for social services that are provided to refugees who participate in Wilson/Fish projects which can be administered by public or private non-profit agencies, including refugee, faith-based, and community organizations. Section 412(e)(7)(A) of the INA provides that:

“The Secretary [of HHS] shall develop and implement alternative projects for refugees who have been in the United States less than thirty-six months, under which refugees are provided interim support,

medical services, support [social] services, and case management, as needed, in a manner that encourages self-sufficiency, reduces welfare dependency, and fosters greater coordination among the resettlement agencies and service providers.”

This provision is generally known as the Wilson/Fish Amendment. ORR has issued a separate standing grant announcement for applications for such projects. The notice can be found at the ORR website at [www.acf.hhs.gov/programs/orr](http://www.acf.hhs.gov/programs/orr).

States are encouraged to consider eligible sub-recipients for formula social service funds, including public or private non-profit agencies such as refugee, faith-based, and community organizations.

### **VIII. Comments and Response**

This section is reserved to address comments received in response to the Proposed Notice to States of FY 2008 Funds for Refugee Social Services. ORR will not be able to accommodate any comments received more than 30 days after the issuance of this notice. (See *Date of Issuance* in *Overview* section.)

If you wish to provide comments, please address written comments to: Moushumi Beltangady, Office of Refugee Resettlement, Administration for Children and Families, 370 L'Enfant Promenade, SW., Eighth Floor West, Washington, DC 20447. Comments also may be faxed to Moushumi Beltangady at (202) 401-0981 or emailed to [Moushumi.Beltangady@acf.hhs.gov](mailto:Moushumi.Beltangady@acf.hhs.gov).

### **IX. Allocation Formulas**

Of the funds available for FY 2008 for social services, **\$83,403,294** is **proposed** to be allocated to States in accordance with the formula specified below.

A State's allowable formula allocation is calculated as follows:

1. The total amount of funds determined by the Director to be available for this purpose; divided by
2. The total number of refugees, Cuban/Haitian entrants, parolees, Amerasians from Viet Nam, Havana parolees, and Cuban medical parolees, as shown by the ORR Refugee Arrivals Data System (RADS) for FYs 2005, 2006, and 2007, and victims of severe forms of trafficking as shown by the certification and eligibility letters issued by ORR, who arrived in the United States not more than three (**3**) years prior to the beginning of the fiscal year for which the funds are appropriated. This total, in the final notice,

will also include the total number of asylees who have been served by a State through its refugee resettlement or social services system in FYs 2005, 2006, and 2007. The resulting per capita amount is multiplied by –

3. The number of persons in item 2, above, in the State as of September 30, 2007, adjusted for verified secondary migration.

The calculation above yields the formula allocation for each State. Minimum allocations for States with low numbers of arrivals are also determined by the allocation formula.

In addition, in order to correct an omission in the calculation of the Final FY 2007 formula allocations, \$45,925 of FY 2008 Social Services discretionary funding will be awarded in this announcement to compensate six States that did not receive credit for additional secondary migrants as a result of a second data submission in FY 2007. Only the first State submission of secondary migration data was used in the FY 2007 Social Services formula allocations. In order to correct this omission, ORR is awarding the difference between the first secondary migration data results and the second secondary migration data set to those six States that should have received additional funding in the Final FY 2007 Notice of Social Services formula allocations. The 21 States that received more than they should have in the FY 2007 final allocations will not be affected by this adjustment.

In Table 1, please note the second column in particular that shows the difference between the award States actually received and the award they should have received. Numbers in parentheses reflect a negative number. There are six states that should have received MORE than they received in the final allocation for FY 2007—District of Columbia, Maine, Nebraska, Ohio, Virginia and Wisconsin. The remaining 21 States should have received LESS in the final allocations due to adjustments for negative secondary migration that were not applied.

<b>TABLE 1</b>

\*Note: Numbers shown in parentheses are negative numbers

#### **X. Basis of Population Estimates**

The population figures used in the proposed allocation in Fiscal Year 2008 for the formula social service funds are based on data on refugee arrivals for FYs 2005, 2006, and 2007, from the ORR Refugee Arrivals Data System (RADS), as of September 30, 2007, adjusted for verified secondary migration. The database includes refugees of all nationalities, Amerasians from Vietnam, Cuban and Haitian entrants, Havana parolees, Cuban medical parolees, and asylees. Data on trafficking victims are taken from the total number of trafficking victims' certification and eligibility letters issued by ORR. Asylee and entrant data, reported by States as receiving services and matched by ORR for FYs 2005, 2006, and 2007, are included.

As previously stated, ORR formula social service **proposed** allocations for the States for FY 2008 are based on the numbers of refugee arrivals, Amerasians, entrants, Havana parolees, Cuban medical parolees, asylees, and victims of a severe form of trafficking. Refugee numbers are based upon the arrivals during the preceding FYs 2005, 2006, and 2007, as of September 30, 2007, adjusted for estimated secondary migration. ORR makes additional adjustments for entrants and asylees who have been served by the States in FYs 2005, 2006 and 2007, through the refugee resettlement program or social service system, as matched by ORR.

The data on secondary migration will be based on data submitted by all participating States on Form ORR-11 on refugee and entrant secondary migrants who have resided in the U.S. for 36 months or less, as of September 30, 2007, as verified through matching against RADS. The total secondary migration report by each State was due to ORR on January 11, 2008. Asylees and victims of trafficking data are not captured on the Form ORR-11; therefore, in response to this proposed notice, States' submission of data on asylees will be used to ensure current information for allocations purposes. ORR includes the number of certification and eligibility letters issued to trafficking victims during FY 2005, 2006, and FY 2007 in the allocations.

For the proposed allocation, the total migration data from ORR-11 State files are matched against RADS, yielding in- and out-migration figures and a net migration figure for each State. The net migration figure is applied to the State's total arrival figure, resulting in a revised ORR population figure. ORR calculations are developed separately for refugees and entrants and then combined into a total **three**-year refugee/entrant population for each State. Eligible Amerasians are included in the refugee figures. Havana parolees and Cuban medical parolees are enumerated in separate columns in the table, below, because they are tabulated separately from other entrants. Havana

parolee and Cuban medical parolee arrivals for all States are based on actual data.

Table 2 (found at the end of this announcement) represents the FY 2008 proposed social service formula allocations. The columns reflect three-year populations, for October 1, 2004, through September 30, 2007, of refugees (Col. <1>), entrants (Col.<2>), asylees (Col. <3>), Cuban medical parolees (Col. <4>), Havana parolees (Col. <5>), trafficking victims (Col. <6>), total population (Col. <7>), the proposed formula amounts that the population yields (Col. <8>), the adjustment for FY 2007 (Col. <9>), and the proposed allocation (Col. <10>).

## **XI. Proposed Allocation Amounts**

Funding subsequent to the publication of this proposed notice, and thereafter, the final notice, will be contingent upon the submission and approval of a State Annual Services Plan that is developed on the basis of a local consultative process, as required by 45 C.F.R. 400.11(b)(2) in the ORR regulations.

## **XII. Paperwork Reduction Act**

Public reporting burden for the information collection in the Quarterly Performance Report is estimated to average 12 hours per response, including the time for reviewing instructions, gather and maintaining the data needed and reviewing the collection information. The information collection in this announcement is approved under OMB control number 0970-0036, which expires 08/30/2010. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB number.
